

KFS Group Coaching Class Communication Tool

The Group Coaching classes offered by Kingdom Foundations will utilize its website and Slack App to maintain the class contents and communicate with students in a timely manner. The Slack App will be used to post the audio/video recordings for each class meeting in the corresponding channel (folder) in Slack and to encourage group discussions. These class audio/video recordings will also be maintained on the RT4 Academy & Coaching website.

To join a Slack workspace for the group coaching class you're registered to, please follow the instructions below to set up your account in Slack before the first coaching class meeting begins.
